## Art Keratoconic System

Featuring a simplified approach to keratoconic lens fitting through adaptive design and optical zone control.

### The AKS<sup>®</sup> Philosophy

There is no single lens design on the market today that is successful for every type of cone. Art Optical's philosophy, that each case should be fit according to the shape and position of the cone, lead to the development of **AKS<sup>®</sup>** (Art Keratoconic System). **AKS<sup>®</sup>** is a practical means of managing your Keratoconic patients according to their specific needs through the use of corneal topography or diagnostic fitting sets.

### For moderate to advanced cases of Keratoconus, try:

#### AKS<sup>®</sup> Standard Design

For primary K's of 47.00 to 53.00 diopters.

**Diameter:** 8.5mm

**Base Curves:** 7.20 to 6.00 in .10mm steps

**Powers** are progressive in -.50 D steps starting at -6.00 D with 7.20mm base curve and ending with -12.00 D at 6.00mm base curve.

**Optical zone diameters** are progressively controlled with the base curve change starting at 7.10mm with the base curve of 7.20mm and ending with 5.90mm at base curve of 6.00mm.

#### Or try...

#### AKS<sup>®</sup> Extended Range Design

For primary K's steeper than 53.00 diopters.

**Diameter:** 8.5mm

**Base Curves:** 6.20 to 5.00 in .10mm steps

**Powers** are progressive in -.50 D steps starting at -11.00 D with 6.20mm base curve and ending with -17.00 D at 5.00mm base curve.

**Optical zone diameters** are progressively controlled with the base curve change starting at 6.10mm with the base curve of 6.20mm and ending with 4.90mm at base curve of 5.00mm.

Count on our team of certified fitting consultants to provide assistance for your low vision patients! Consultants are available 8:30am - 5:30pm Monday through Friday.

#### One Warranty, No Worries

Unlimited Exchanges! No Lens Returns Required\*! No Material Exchange Fees! Our worry-free fitting warranty has you covered for 120 days from the initial order date.
